

ROI CALCULATOR

Section 1: Type of App

1. Form Based Apps

Type: Inspection App, Report Generation, Conditional Visibility, Data Validations

Complexity: Complex

2. Process Automation Apps

Type: Purchase Order Request, Invoice Management, Employee Onboarding

Complexity: Complex

3. Dashboards

Type: Daily Sales Reports, Inventory Dashboard, Financial Performance

Complexity: SuperComplex

4. Custom Applications

Type: Move legacy systems and processes to cloud

Complexity: SuperComplex

Section 2: Hourly Wage

What is desired level of quality for your app?

\$180/hour Silicon Valley

Section 3: App Feature

1. Design and Development

Feature Name	Complexity	Feature Details
Platform	SuperComplex	Mobile,Tablet,Web
Frontend Design	SuperComplex	Branding Guidelines,UI Design,Conditions & Validations,Gestures, Native features
Business Logic	SuperComplex	Workflows,Automations
Database	SuperComplex	Sheets - Cloud database,Connect to existing database
Container and Core Features	SuperComplex	Device APIs,Offline Access,Interapp communication,SSO & Login session management,Notification service,network optimized sync

2. Deployment

Feature Name	Complexity	Feature Details
Publishing	Complex	App Store Publishing,White Labelling
Analytics	SuperComplex	App Analytics,User Analytics
Management	Complex	User Management,Upgrade Management
Security	Simple	None
Add-ons	Complex	Content Management System,Emails

Section 4: Hosting Cost

Hosting Cost	Cost
How many users will use the app?	10,000-100,000
Monthly hosting charges	\$1000
Hosting Cost with DronaHQ + License Free	\$1300

Final Comparison

Compare	Time with Pro-Code	Time with Low-Code
Total Development Time	1656 hours	360 hours
Total Development Cost	\$188640	\$24480
Annual Hosting Cost	\$12000	\$15600
Annual Maintenance & Support	\$4200	\$5460

Total Saving with DronaHQ: \$159300

Time Saved with DronaHQ: 1296 hours
